## Canadian Plastics Sector Council announces national Essential Skills initiative

Monday, June 14, 2010

OTTAWA, June 10, 2010: The Canadian Plastics Industry with its 3,400 companies and 113,000 workers is headed for a major human resources development aimed at increasing competitiveness by improving the skills of its workforce.

To support that effort, the **Canadian Plastics Sector Council** (CPSC) announced today a national initiative to boost productivity, safety and ability to adapt to change within the plastics industry workforce through the development of **Essential Skills**.
